CATALOGUE OF THE STEIN COLLECTION OF SANSKRIT MSS. FROM KASHMIR

COMPILED BY GERARD L. M. CLAUSON, SCHOLAR OF CORPUS
CHRISTI COLLEGE, OXFORD, AND BODEN SANSKRIT SCHOLAR.

WITH INTRODUCTORY NOTE BY PROFESSOR A. A. MACDONELL,
KEEPER OF THE INDIAN INSTITUTE.

THE subjoined catalogue describes a collection comprising 368 separate texts mainly in Sanskrit, which were collected by Dr. M. A. Stein and acquired at his expense chiefly at Śrīnagar during his visits to Kashmir between 1888 and 1905. Apart from texts needed by Dr. Stein for his labours, during 1888-99, on his critical edition and annotated translation of Kāhapa's *Rājatarāṅgiṇī*, numerous MSS. were purchased by him either to assist the work of fellow-scholars in Europe or on account of their philological or palaeographical interest.¹

In May, 1911, this collection was formally handed over by Dr. Stein to the Curators of the Indian Institute, Oxford, as a deposit during his lifetime. The Curators had gratefully accepted Dr. Stein's benefaction under the following conditions:—

(1) The MSS. are to be kept as a separate collection in a suitable place in the Indian Institute Library, on the understanding that they remain Dr. Stein's personal property during his lifetime, and that they are bequeathed to the Indian Institute under his will.

¹ Selections from his collection of Sanskrit MSS. were handed over by Dr. Stein in 1894-5 to the late Professors Bühler and Roth for the Vienna Imperial Library and the Tübingen University Library respectively. A smaller selection subsequently passed, through M. Émile Senart, Membre de l'Institut, to the Bibliothèque Nationale, Paris.

(2) The MSS. are to be held available for Dr. Stein's use during his lifetime wherever and whenever he may require any of them, arrangements for their transmission being made by the Librarian.

(3) No MS. is to be allowed to pass outside the Library except with Dr. Stein's written consent.

(4) Dr. Stein's permission for the use of MSS. of hitherto unpublished texts must be obtained by intending students in each case as long as the MSS. remain his property.

(5) A brief but exact catalogue of the MSS. is to be prepared for the Curators by a competent Sanskrit scholar selected with Dr. Stein's approval, and to be published within three years of the date on which the MSS. have been deposited at the Institute; the publication to be made, if possible, in the Journal of some Oriental Society.

The last condition has already been fulfilled by the compilation of the catalogue, with Dr. Stein's approval, by Mr. Clauson, and its publication in this Journal. The catalogue is based on one which was prepared in slips and written in Sanskrit by the late Paṇḍit Govind Kaul,¹ and which was revised and copied, with reference to the original MSS., in December, 1905, and January, 1906, by Paṇḍit Sahajabhaṭṭa² under Dr. Stein's supervision.

The MSS. are classified according to subjects in the usual way. The original manuscript numbers are given in the first column printed as Arabic numerals in thick type, while the serial numbers appear in the last column as Roman figures. This distinction is made in order to prevent confusion in identifying the MS. wanted when application is made to the Librarian to transmit it to a distance.

¹ See regarding this eminent Kashmir scholar (died 1899), Stein, *Rājatarāṅgiṇī* edition, p. xvii; Translation, vol. i, p. xxii.

² Compare for Paṇḍit Sahajabhaṭṭa's scholarly experience and valuable assistance, Stein, *Catalogue of Jammu Sanskrit MSS.*, p. xi. This highly deserving scholar died in November, 1911.

Records made by Dr. Stein on the fly-leaves of MSS. have as far as possible been reproduced in the column of Notes.

Where not otherwise noted, the MSS. are written in Śārādā characters and on Kashmir paper. The note "old paper" is intended to convey that in Dr. Stein's opinion the MS. cannot date later than from the eighteenth century, but may be earlier.¹

¹ The following abbreviations are used in the Catalogue: Śar. Śārādā; Dev. = Devanāgarī; Rāj. = Rājānaka; Ma' = Māhātmya; Sam. Samhitāyām. The size of the MSS. is given in inches.
